

**In considering sustainability when deciding to print, PERMASET Inks are the most environmentally responsible choice.**

PERMASET Inks are owned and made by Colormaker, a boutique coatings manufacturer located on the sunny Northern Beaches of Sydney, Australia. Colormaker embraces continuous improvement practices for a more sustainable future. Flip the card and see what we're about.

Thank you for supporting sustainable manufacturing.

Permaset

@permaset\_aqua

Printed on Revive Laser uncoated, 100% recycled paper stock which is manufactured carbon neutral and produced by an ISO 14001 Certified mill in Australia. No chlorine bleaching occurs in the recycling process.

## LIFT THE LID ON PERMASET INKS ECO CREDENTIALS

### PERMASET Inks are working towards a cleaner environment

Our inks do not contain ozone-depleting chemicals such as CFCs, HCFCs, aromatic hydrocarbons or volatile solvents. They are also free of lead, heavy metals and toxic chemicals.

Our PERMATONE range of textile inks passed the Oeko-Tex® Standard 100 Class 1 and is safe to use on underwear, swimwear and even baby clothes (infants under 2 years).

PERMATONE has been granted Approval by the Soil Association in the UK, having successfully met the requirements of the Global Organic Textiles Standards (GOTS) for non-organic chemical inputs for use in organic textile processing.

### Our inks are kind to animals and GMO free

PERMASET Inks are vegan. Our ingredients are not sourced from animals and our inks are not tested on animals. Ingredients that are sourced from plants are certified GMO free.

### PERMASET Inks are made using sustainable practices

We strive to tread lightly on the earth by recycling our paper, water and metal waste.

100% of our electricity comes from renewable sources. Our solar array generates 2x as much energy as we use to power our own processes. It is enough to power 20 homes and save over 150 tons of green house gases per year.

### We are part of a community of eco-conscious printers

Our website and YouTube channel delivers educational content empowering screen printers with ideas, methods & engagement.

We share our training resources with educational institutions building awareness and knowledge of sustainable screen printing practices.

### PERMASET Inks choose slow consumption

We choose longevity over single use. Slow Fashion over Fast Fashion.

When cured, PERMASET prints are durable and are wash, rub and dry clean resistant.

### We sponsor community engagement and leadership

Colormaker Industries empowers disadvantaged communities through social giving and engagement.
