Permatone®

EXTENDER

PERMATONE® Extender is an uncoloured mixing base for achieving tints with **PERMATONE®** eco-friendly screen printing textile inks. The resulting tint retains the same superior soft handle and excellent durability characteristic of **PERMATONE®** textile inks.

PERMATONE® textile inks are very high in pigment. Tints are achieved by reducing the intensity of colour through a process of reduction. This e-book shows ten reductions for each colour in the **PERMATONE®** textile ink range from 100% (pure **PERMATONE®** ink) to 0.1% (0.1g **PERMATONE®** mixed with 99.9g **PERMATONE® Extender**).
